SUMMARY COMMENT
Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.
Efforts: At this time the Community Entity (CE) is working closely with the Community Advisory Board (CAB) and Service Canada representatives to improve Coordinated Access/HIFIS implementation before the March 2022 deadline. The CE is also working with the National Indigenous Homelessness Systems Pathfinder group in creation of a culturally appropriate 'assessment tool' for Coordinated Access/HIFIS. Also, the CE is working with the Canadian Lived Experience Leadership Network surrounding lived Experience of Homelessness on a National level. The City of Saskatoon was also granted additional dollars through the Rapid Housing Initiative in partnership with Canadian Mortgage and Housing Corporation (CMHC) to provide additional capital funding for much needed housing initiatives within the city. Several of our community organizations have received additional Covid-19 relief funding to assist with the Covid-19 pandemic restrictions which were greatly needed to better support our vulnerable homeless population. The implementation of the Cold Weather Strategy played a significant piece in saving lives during record-breaking cold snaps in Saskatoon. Outreach teams were assembled quickly and provided immediate shelter and support to anyone found "sleeping rough" on Saskatoon streets. Issues: Dealing with the impact of Covid-19 was the first priority in 2020-2021 in our community. The community organizations that assist people experiencing homelessness were required to pivot both in terms of operations and services to ensure the safety of our population rather than focusing on governance models for Coordinated Access. Saskatoon has postponed the PIT count until spring 2022 due to the uncertainty of the Covid-19 infection increases that are occurring within Saskatchewan and neighbouring provinces. This has also impacted the gathering of up-to-date information to inform the coordinated access decision making. The CE organization also had significant staff turnover which caused additional delays and over-extension of the remaining staff members.
